Reviewer's report

Title: Insight in modulation of inflammation by gene, protein and metabolite profiling in overweight males: a human intervention study

Version: 3 Date: 7 January 2010

Reviewer: Yu Wang

Reviewer's report:

The revised manuscript has improved and provided sufficient data to support the descriptions.

I would suggest to change the title to "Insight in modulation of inflammation by diclofenac: a human intervention study", which may be more precise to the report.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
