Reviewer's report

**Title:** Bioinformatic analyses identifies novel protein-coding pharmacogenomic markers associated with paclitaxel sensitivity in NCI60 cancer cell lines

**Version:** 2  **Date:** 6 January 2011

**Reviewer:** Zhenfeng Duan

**Reviewer's report:**

The reviewer still think validation of these results by Realtime PCR or northern blot analysis is necessary for this study. This is a simple experiment, and would add significantly to the manuscript. However, the author mentioned this is only a bioinformatic study.

**Level of interest:** An article of limited interest

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**

I declare that I have no competing interests
