Reviewer's report

Title: Caipirini: using gene sets to rank literature

Version: 2 Date: 28 November 2011

Reviewer: Graham Poulter

Reviewer's report:

Having read the authors' responses and the revised manuscript, I determine that the authors have satisfactorily responded to the comments in my first report.

Major Compulsory Revisions

None.

Minor Essential Revisions

None.

Discretionary Revisions

1. Email notifications could be returned as an optional feature. Although compulsory email turns away some users, optional email notification is still convenient. Typical scenario: a user visits the pending results page for their query and observes that completion is a few hours away; the user may then wish to enter an email to be notified on completion rather than bookmark the page to revisit later.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

No competing interests.
