Reviewer's report

Title: The paediatric flat foot proforma (p-FFP): improved and abridged following reliability analysis.

Version: 2 Date: 10 July 2009

Reviewer: Jackie Campbell

Reviewer's report:

This revised paper has been considerably rewritten and is now much better focussed. I am happy to see this proceed to publication. However, as a discretionary revisions, I would ask the authors to reconsider the use of the phrase 'unacceptably reliable' in the abstract(I think it is unreliability that is unacceptable).

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
