Reviewer’s report

Title: Idiopathic toe walking and Sensory Processing Dysfunction: A review of the literature.

Version: 2 Date: 21 July 2010

Reviewer: Angela Margaret Evans

Reviewer’s report:

Thank you once again for the opportunity to review this paper. The authors have attended to the original reviewers’ suggestions and incorporated within this revised draft. Tables 1 and 2 have been revised as suggested and all in text suggestions incorporated. The clarity of the paper overall is improved, which is very important given the lack of the same for the topic in general.

Thank you for taking the time to consider the reviews and the revise accordingly.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
