Reviewer’s report

Title: Classification of the midfoot: normal, low or high arched feet.

Version: 4 Date: 8 December 2011

Reviewer: RobRoy L Martin

Reviewer’s report:

Overall the authors should be commended on their work in revising this paper to now be an excellent contribution to the literature.

I do not have any major comments. I do think there are some sentence structure issues that could be made to improve clarity.

Example:
last sentence in paragraph 1 (page 4)
page 5: 1st sentence paragraph 2

These sentences could be reworded. I will leave these and similar changes to the discretion of the editor.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
