Reviewer's report

Title: Dermatology within the UK podiatric literature: a content analysis (1989-2010)

Version: 1 Date: 10 April 2013

Reviewer: Kate Springett

Reviewer's report:

Minor essential
1. within introduction, emphasize importance of dermatology in podiatry to help explain need/purpose of the work.
2. some editing is needed. Remove p6 reference to 'Appendix, vol 1', I can only find two figures, not the 7 indicated in the script
3. recommend indicating methodology selected is routine for this sort of work to help emphasize its robustness

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
