Reviewer's report

Title: Nature and Incidence of Upper Limb Injuries in Professional Cricket Players A Prospective Observation

Version: 2 Date: 7 November 2011

Reviewer number: 1

Reviewer's report:

- Minor Essential Revisions
Page 5 - last par - 1 slow bowler

- Discretionary Revisions
Tables 2 & 3 would benefit from bowlers being split into fast and slow

Methods could mention another deviation from the international definitions was the inclusion of injuries which only caused missed time from practice.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
