Reviewer's report

Title: A Pilot Study of the Sharing Risk Information Tool (ShaRIT) for Families with Hereditary Breast and Ovarian Cancer Syndrome

Version: 2 Date: 24 March 2012

Reviewer: Angela Bradbury

Reviewer's report:

The authors have provided a thoughtful and thorough response to reviewer comments. As previously indicated, this is an interesting intervention addressing a clinically relevant issue in the care of families with hereditary cancer. The revised manuscript is expected to contribute significantly to the literature addressing communication of family risk information in families.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
