Reviewer’s report

**Title:** Is there a need to screen for testicular germ cell tumor in relatives of patient with extragonadal germ cell tumor?

**Version:** 1 **Date:** 30 December 2012

**Reviewer:** Jacek JG Gronwald

**Reviewer’s report:**

It is report the case of twin brothers affected with mediastinal seminoma and testicular seminoma. The authors describe discuss risk related with positive family history of seminoma for first degree relatives. The paper describe precisely relatively rare problems in hereditary cancer clinic and therefore I value it highly and recommend it for publication.

**Level of interest:** An article whose findings are important to those with closely related research interests
