Reviewer's report

Title: Mutation Spectrum in South American Lynch Syndrome Families

Version: 1 Date: 22 September 2013

Reviewer: Ramon Andrade de Mello

Reviewer's report:

The article by Dominguez-Valentin at al is very interesting and important to the field. However, only slight typing and language mistakes should be reviewed toward the article before its publication. The rational and methodology are strong and gives an good support for heir discussion and conclusion. I have no more concerns to this article.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
