**Reviewer's report:**

Comment #1
On page 11, please provide the numbers and references of RCTs (n=125)(references needed), quasi-experimental studies (n=?) (references needed), and before after studies (n=?) (references needed).

Comment #2
On page 11, please, spell out 123 when starting the sentence.

Comment #3
On page 11, right after the sentence “Furthermore 125 of these trials were RCTs while rest were quasi experimental and before after studies” please add a couple of summary sentences on characteristics of intervention/fortification (e.g., micronutrients: iron fortification, zinc, vitamin D supplements and food vehicles used) and outcomes (e.g., laboratory biochemical, clinical such as pregnancy, morbidity outcomes, mortality) of included studies.
