Title: Methods on the move: a critical reflection on two decades of "negotiating" Cochrane standards and protocols for producing qualitative evidence syntheses

Version: 2 Date: 10 September 2013

Reviewer: Esther Coren

Reviewer's report:

Looking good.

The one minor but essential revision to my mind is that I would like to see the word 'overly' in fifth line of the section on 'prescription versus pragmatism', removed, or replaced with something more value neutral such as 'highly'.
