Reviewer’s report

Title: Effects and repercussions of local/hospital-based health technology assessment (HTA): A systematic review

Version: 3 Date: 29 September 2014

Reviewer: Americo Cicchetti

Reviewer’s report:

Discretionary revision:

The authors completely ignored my suggestions about one point. They are citing a document (authored by myself and other colleagues) as:

Interest Sub-Group. Hospital Based HTA. Hospital Based Health Technology Assessment. World-Wide Survey

I suggested to cite correctly as:

Hospital Based HTA. Hospital Based Health Technology Assessment. World-Wide Survey
Cicchetti, A., Marchetti, M. Dibidino R., Corio, M. on behalf of HTAi’s Hospital Based Sub Interest Group.

Just to understand if they are not willing to make this change in order to respect international accepted authorship rules.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I’m involved in the management of an hospital based HTA unit.
