Reviewer’s report

Title: Development of a theory- and evidence-based intervention to enhance implementation of physical therapy guidelines for the management of low back pain

Version: 2
Date: 10 December 2013

Reviewer: Philippe Mairiaux

Reviewer's report:

I thank the authors for their understanding of the questions I had raised in my review. I observe that they have brought significant improvements to their paper. Due to these changes, the paper has gain in clarity and could prove useful and interesting for physiotherapy scientists willing to improve the quality of their practice.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
