Reviewer's report

Title: Nitric Oxide and Histone Deacetylases Modulate Cocaine-Induced Mu-Opioid Receptor Levels in PC12 Cells

Version: 2 Date: 27 September 2012

Reviewer: Li-Na Wei

Reviewer's report:

The paper by Winick-Ng has addressed most, if not all, issues raised in the previous comments. Additional experiments have been included, and text has been modified to accommodate new data and discussion. The paper is now much improved.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
