Reviewer's report

Title: Efficacy of lisdexamfetamine dimesylate in adults with attention-deficit/hyperactivity disorder previously treated with amphetamines: analyses from a randomized, double-blind, multicenter, placebo-controlled titration study

Version: 1 Date: 17 June 2012

Reviewer: Richard H Weisler

Reviewer's report:

Consider eliminating the graphical representation of the two subjects randomized to placebo as it may confuse readers unless they see the small N for each bar in Figure 2.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
