Reviewer’s report

Title: AnvirzelTM in combination with cisplatin in breast, colon, lung, prostate, melanoma and pancreatic cancer cell lines.

Version: 1 Date: 18 December 2012

Reviewer: G P Stathopoulos

Reviewer’s report:

This in vitro study is quite interesting and well conducted. The combination of Anvirzel with cisplatin increase the effectiveness in tumor cell culture.

It would be favorable to perform an in vivo trial.

The only comment is: why examination in breast and colon cancer cell lines is written in the title but is not presented in the text?

Positive for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
