Reviewer’s report

Title: CD4 positive/CD8 negative/CD56 positive T cell Large Granular Lymphocyte Proliferations. Clonal Disorders of Uncertain Significance.

Version: 3 Date: 14 April 2014

Reviewer: Michael Clemente

Reviewer’s report:

Major Revisions
Authors must include in figures the results from TCR gamma rearrangement PCR. It is of interest to the reader to evaluate clonality.

Minor Revisions
The word "commoner" was not corrected as requested in the manuscript and was used twice in the resubmission.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interest.
