Reviewer's report

Title: Tear of Peroneus longus in long distance runners due to enlarged Peroneal tubercle.

Version: 1 Date: 23 May 2012

Reviewer number: 1

Reviewer's report:

A table in the following paper includes reported cases of peroneus longus tenosynovitis before 2008. It will be helpful for the authors to revise the manuscript.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published
