Title: Nefopam for the prevention of perioperative shivering: A Meta-analysis of randomized controlled trials

Version: 2 Date: 23 April 2015

Reviewer: Elena Bignami

Reviewer’s report:

Despite the limitations, that you have already pointed out, I think it's a good review.

The fact that it was not made in blind between the various reviewers increases the risk of bias, but not so heavily.

Best regards.
