Reviewer’s report

Title: Fluid management guided by a continuous non-invasive arterial pressure device is associated with decreased postoperative morbidity after total knee and hip replacement

Version: 4  Date: 22 July 2015

Reviewer: Karim Lakhal

Reviewer's report:

The authors addressed all the issues I previously raised. Thanks to the changes proposed by the reviewers, the manuscript has been markedly improved and the authors should be congratulated for their efforts.

Karim Lakhal, Nantes

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
