Reviewer’s report

Title: Palliative patients under anaesthesiological care: A single-centre retrospective study on incidence, demographics and outcome

Version: 2 Date: 7 August 2015

Reviewer: Christoph Ostgathe

Reviewer’s report:

The paper has really benefitted from revision. Thank you!
My only comment left is concerning the table on diagnosis. I would presume that a more detailed information on the frequency of the most common cancer sites would be very informative.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
