Reviewer's report

Title: Ventricular Assist Devices and Non-Cardiac Surgery

Version: 3 Date: 11 June 2015

Reviewer: carlo banfi

Reviewer's report:

The paper is very interesting:
Valuable and extensive review of available data in the management of ventricular assist device in non cardiac surgery. Very useful for clinicians.

Clinical results are appropriate and well argued. The detail can be report as follows:

1. Accurate title and abstract

3. The paper provides good clinical results. A very well written paper, clear and direct in its assumptions.

4. The aim and objectives of the study are clearly stated, the presentation of the results is clear, the data satisfies the objective of the study.

5. Conclusions are relevant to the aims and objective of the study

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
