Reviewer's report

Title: Femoral nerve block–sciatic nerve block vs. femoral nerve block–local infiltration analgesia for total knee arthroplasty: a randomized controlled trial

Version: 3 Date: 24 August 2015

Reviewer: Patricia Lavand'homme

Reviewer's report:

The authors have provided some responses to the concerns of the reviewers but they seem to have directly included it in the text? It is thus difficult to be sure that the majority of the concerns pointed out have been answered. Also some responses are inadequate in the text.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I don't have any competing interest.
