Reviewer’s report

Title: Case Report: Anaesthetic management of radical gastrectomy for gastric cancer associated with anti-N-methyl-D-aspartate receptor encephalitis

Version: 0 Date: 27 Feb 2017

Reviewer: Shalini Raj Lawrence

Reviewer's report:

This is an interesting case report looking at a relatively rare disorder; it would be interesting to look at the aetiology of such a disease, and present a little bit more information regarding the incidence and ideal medical management.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Unable to assess

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
