Reviewer’s report

Title: Patients with Glycogen Storage Diseases Undergoing Anesthesia: A Case Series

Version: 0 Date: 12 Jul 2017

Reviewer: Hynek Riha

Reviewer's report:

It is a retrospective review of patients with different types of glycogen storage diseases undergoing various anesthetic procedures.

The manuscript is clearly written and reads easily.

MAJOR COMMENTS

1. In Methods section I would suggest to add a definition for metabolic acidosis (similar to definition of hypoglycemia) which was used by the authors during review of their cases.

MINOR COMMENTS

1. Page 10/last paragraph: I would suggest ...disturbances despite intraoperative administration of LR...

TECHNICAL COMMENTS

1. Page 9/end of first paragraph: the reference to the statement of MHAUS should be numbered and moved to the list of References including the date when the link was checked.

Are the methods appropriate and well described?

If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?

If not, please specify which controls are required in your comments to the authors.

Yes
Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
