Please overwrite this text when adding your comments to the authors.

Thanks for changes you have made to your manuscript, now it is better organized and then readable.

Please consider the following additional notes.

1) PAG 9
This statement is confusing...
I guess the meaning would be that the placement of a nasopharyngeal airway eliminated the upper airway collapse...
Also what kind of head movement are caused by OSAS? This is not clear to me.
Please review this part.

2) PAG 13
Please explain clearly what are the "particular benefits" in this category of patients

Please think highly to check once again the English, unfortunately the language still requires improvements.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes
Does the work include the necessary controls?  
If not, please specify which controls are required in your comments to the authors.
