Reviewer’s report

Title: The Clarus Video System (Trachway) and Direct Laryngoscope for Endotracheal Intubation with Cricoid Pressure in Simulated Rapid Sequence Induction Intubation: A Prospective Randomized Controlled Trial

Version: 2 Date: 05 Feb 2019

Reviewer: Martin Schlaepfer

Reviewer's report:

Thank you very much for revising the manuscript according to my suggestions. The manuscript improved a lot, thanks to the effort of the authors. I have no further suggestions.

The authors might consider to slightly revise their conclusion if they wish to: CVS-D and DL provide a higher first attempt intubation success rate within 30 and 60 seconds, intubation time for the CVS-V was nonsignificantly shorter than that for the other two intubation methods. Almost all the patients can be successfully intubated with any of the three intubation methods within 60 seconds.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare, that I have no competing interests.
