Reviewer’s report

Title: Association between fluctuations in serum chloride levels and 30-day mortality among critically ill patients: A retrospective analysis

Version: 0 Date: 19 Apr 2019

Reviewer: Essam Abdel Hakeem

Reviewer’s report:

It is better to write patient Characteristics instead of demographic characteristics

It was better if measurement of chloride in a fixed time from ICU admission

It was better for this study to be a multi-center study

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
