Reviewer’s report

Title: LMA® GASTRO™ Airway for endoscopic retrograde cholangiopancreatography: a retrospective observational analysis

Version: 1 Date: 05 Apr 2020

Reviewer: Timothy Ness

Reviewer's report:

The authors have addressed this reviewer's concerns adequately although one change is needed - the added section entitled COMPARATIVE DATA BETWEEN SEDATION WITH LOW FLOW NASAL CANNULA vs. LMA® GASTRO™ AIRWAY vs. INTUBATION ERCP CASES - should be in the Results section or included as Supplemental Data - at the Editor's discretion. It is not appropriate to the Discussion section as currently presented.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
