Reviewer’s report

Title: Anemia and perioperative mortality in Non-cardiac Surgery patients: a secondary analysis based on a single-center retrospective study

Version: 1  Date: 23 Mar 2020

Reviewer: Osama Abou-Arab

Reviewer's report:

The authors improved the manuscript in a high extent.

they brought robust statistical justification of their method analysis which is more convincing.

I have 2 minors comments:

1. could the authors define mild and moderate/severe anemia in the abstract?

2. could the authors check all the abbreviations in the tables. Some are missing and make the reading some difficult.

3. the manuscript needs some English spelling corrections.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
