Reviewer’s report

Title: Laryngeal mask airway reduces incidence of post-operative sore throat after thyroid surgery compared with endotracheal tube: a single-blinded randomized controlled trial

Version: 1 Date: 24 Nov 2019

Reviewer: Katherine Saied

Reviewer's report:

Thank you for allowing me to review this article and involving me in the reviewing process. I am very pleased to see that we agreed on most of the recommendations and that they were all taken into consideration, as I think they could make this into a stronger and better article, and contribute as evidence and a helpful resource in a topic that still needs a lot of study. I have no further recommendations, and again thank you for involving me in this article.

Kind Regards,

Katherine Saied M.D.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
