Reviewer’s report

Title: Intraoperative ventilation strategies for obese patients undergoing bariatric surgery: systematic review and meta-analysis

Version: 2 Date: 30 Nov 2019

Reviewer: Babatunde O. Ogunnaike

Reviewer's report:

My comment about laparoscopic versus open bariatric surgery was not about the surgical technique but to find out if there is literature that discusses how ventilation strategy affects outcomes when surgery is done via laparotomy or via laparoscopy.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English
