Reviewer's report:

It is an interesting paper on a hot topic. I've some requests for authors:

1. How was the opinion of the endoscopist collected given the retrospective nature of the study?

2. what were the reasons for the failure of ventilation in the 4 patients?

3. I suggest to include the following papers in the discussion:

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
