Title: Effect of Angiotensin-Converting Enzyme Inhibitors and Angiotensin II Receptor Blockers on Cardiovascular events in Patients with Heart Failure: A meta-analysis of randomized controlled trials

Version: 0 Date: 04 Aug 2017

Reviewer: Sebastian Garcia Zamora

Reviewer's report:

I think your meta-analysis is very interesting. However I would like to make a small observation from a practical issue: in the "meta-regression" section you have compared captopril versus enalapril. It would be interesting if you could do this again adding lisinopril and ramipril, since this drugs are currently more used than captopril.
