Reviewer’s report

Title: Effect of pocket irrigation with antimicrobial on prevention of pacemaker pocket infection: a Meta-analysis

Version: 0 Date: 11 Jul 2017

Reviewer: Rita Pavasini

Reviewer's report:

This is an interesting meta-analysis on the effect of pocket irrigation with antimicrobial on device infection. The paper is statistically well conducted, unfortunately an extensive revision of English grammar is needed. I also suggest to perform if possible:

- Subgroup analysis or meta-regression for the type of implantation (PM vs ICD v/ CRT)
- Meta-regression for the mean age of the patients in every study population
- It is not clear the time for infection, were the event related to the implantation or were they mainly happening in the long term follow-up, if this is the case, how authors thinks that the initial irrigation of the pocket could have affect the outcome?
- Is there any difference in the time of the occurrence of the infections between antibiotics vs antimicrobial vs saline?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?
2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?
3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?
4. Have you received reimbursements, fees, funding, or salary from an organisation that holds or has applied for patents relating to the content of the manuscript?
5. Do you have any other financial competing interests?
6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
