Title: Comprehensive geriatric assessment in patients undergoing transcatheter aortic valve implantation - results from the CGA-TAVI multicentre registry

Version: 0 Date: 06 Oct 2017

Reviewer: Jacek Bil

Reviewer's report:

1. It would be interesting to know the whole number of TAVI performed in those centers in the study period.

2. MPI, Silver Code and SPPB could be attached as the online attachments (supplemental files).

3. 'Pulmonary disease' should be changed to something a bit more specific. Was it COPD?

4. In the Discussion section there should a comment on the obtained results (death and hospitalization rates) when compared with large registries.

5. English should be improved.
