Reviewer’s report

Title: Blood lactate is a predictor of short-term mortality in patients with myocardial infarction complicated by heart failure but without cardiogenic shock

Version: 1 Date: 05 Oct 2017

Reviewer: Muharrem Akin

Reviewer's report:

Congratulations to this well written and well done paper. Response to reviewers comments are acceptable

However, like first reviewers, there seems to be a leack of the SCAAR registry according to some comments of reviewers, which would be importante to know.

Maybe this limitations of informationyield should be pronounced in the limitations-part.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
