Reviewer’s report

Title: Cytochrome P450 Family 4 Subfamily F Member 2 (CYP4F2) rs1558139, rs2108622 polymorphisms and susceptibility to several cardiovascular and cerebrovascular diseases

Version: 0 Date: 29 Dec 2017

Reviewer: Steven Jones

Reviewer’s report:

This is a meta analysis of 2 SNPs in the CYP4F2 gene locus vs. cardiovascular outcomes. The analysis follows standard PRISMA methodology for meta analysis. Statistics and methods are clearly described as well as search methodology and results. The findings are discussed adequately and conclusions drawn appropriately given results of analysis.

The paper suffers from numerous difficulties in awkward wording and difficulties with formation of purals, word choice and phrasing which would benefit from stylistic editing by a native English speaker or similar editor/co-author.

This is an interesting result that may have significant implications in guiding additional mechanistic investigation or guide further epidemiologic investigation of risk predictors in similar Asian populations.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
