Reviewer’s report:

The paper has much improved. I have some minor comments:

- Page 6, second paragraph, line 4, a preposition is missing "a random effect model was used XXX all meta-analysis"
- Discussion, line 5-6, please revise the sentence, a subject is missing after "and" and also and object.
- Is it possible to provide a Table dedicated only to NOS scale? As supplemental online material?

Are the methods appropriate and well described?
