Reviewer’s report

Title: Phosphorylated Proteomics Analysis of Human Coronary Artery Endothelial Cells Stimulated by Kawasaki Disease Patients Serum

Version: 1 Date: 28 Oct 2018

Reviewer: Xue-Juan Gao

Reviewer's report:

In the present manuscript, Li et al. reported the Phosphorylated Proteomics of KD and identified the significantly phosphorylated protein in KD, which provide the potential new targets to treat KD. This work is likely to be of interest to the readership of this journal. However, there are still some comments should be addressed:

1. In the methods and materials section, there was no the supplier information for antibodies used in this study.

2. In Fig. 4, the order of bands is improper. Usually, the phosphorylated protein is in the upper.

3. In Conclusions, "in vivo" should be Italic.

This work may be important and beneficial to the field, and I believe it is suitable for publication in "BMC Cardiovascular Disorders".

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an
additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
