Reviewer’s report

Title: Prognostic Value of Dual-Source Computed Tomography (DSCT) Angiography Characteristics in Anomalous Coronary Artery from the Opposite Sinus (ACAOS) Patients: A Large-Scale Retrospective Study

Version: 2 Date: 04 Nov 2019

Reviewer: Michiel Voskuil

Reviewer's report:

The authors have revised the manuscript adequately. Only one very minor finding: There is no legend explaining the abbreviations of Figure 3: The Flow chart of the study. With this make the abbreviation of ACAOS uniform: change ARCA-L and ARCA-R in Figure 3.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
