Reviewer’s report

Title: Association between transitional care factors and hospital readmission after transcatheter aortic valve replacement: A retrospective observational cohort study

Version: 0 Date: 11 Oct 2018

Reviewer: Jeffrey Bakal

Reviewer's report:

Overall this is seems to be a well presented manuscript. I am concerned a bit about the age of the data, given the teams access to admin data and the short followup.

In addition I would suggest the addition of a subject flow chart as a figure 1.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
