Reviewer’s report

Title: Assessment of hypertension management and control: a registry-based observational study in two municipalities in Cuba

Version: 1 Date: 06 Dec 2018

Reviewer: Leopold Aminde

Reviewer's report:

Thanks for efforts in addressing most of the previous comments.

A few more issues;

1) Table 1: while you have done a good job to reorganize it, I think it is important to show the actual frequencies 'n' for each variable category accompanied by the percentages which you have presented, just like you do in column 2 of table 2. This would give a sense of the data and the presence or not of any missing values in the variables. Secondly, given you already indicate in the second row of columns 2, 3 and 4 your description of the variables as either "% / mean", no need to accompany the values below with '%' again. Kindly delete them.

2) In line with comment above regarding missing values, in case there are any missing values, endeavour to discuss in the methods section how you handled missing values.

3) Referencing: please separate your in-text citations with comas, and not semi-colons. You may want to check journal guidelines for strict adherence.

Thank you.
Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?
If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare I have no competing interests.
