Reviewer’s report

Title: Association between Coronary Dominance and Acute Inferior Myocardial Infarction: a Matched, Case-control Study

Version: 1 Date: 27 Nov 2018

Reviewer: Jacek Bil

Reviewer's report:

I think that without further data (e.g. impact on clinical outcomes in FU) the papers add nothing new since it is well known that the larger artery the larger MI size.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
