Reviewer's report:

Infantile Hepatic Hemangiomas associated with high-output cardiac failure and pulmonary hypertension ------a case report and review of the literature.

Thank you for choosing me to review this paper. The topic that authors have chosen is very interesting, however by reading this paper I have the feeling that it was not explored deeply enough. You have stated in the title that it is a literature review but I do not see this part in the paper, so maybe you should expand this topic? I think it may add to this paper.
