Reviewer’s report

Title: Evaluation of Tp-e Interval, Tp-e/QT Ratio and Tp-e/QTc Ratio in Patients with Acute Myocarditis

Version: 0 Date: 24 Feb 2019

Reviewer: Çagri Yayla

Reviewer's report:

The author of this study sought to investigate the association between Tp-e Interval, Tp-e/QT Ratio and Tp-e/QTc Ratio in Acute Myocarditis. This is a surprising finding that Tp-e, Tp-e/QT and Tp-e/QTc is higher in acute myocarditis. Despite some limitations (retrospective enrolment), this paper is interesting, however some improvements are needed:

1. The author should mention about cardiac MRI which commonly use for myocarditis diagnosis.
2- Other WBC parameters (neutrophil and lymphocyte counts) should be added to table-1
3- Tables should also be checked, in table -2; iCEB = index of cardio-electrophysiological balance is not included in text and should be revised.
4- The author should also carefully check the manuscript for spelling and grammar

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published
**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

None.
