Reviewer’s report

Title: Whole grain food diet slightly reduces cardiovascular risks in obese/overweight adults: a systematic review and meta-analysis

Version: 2 Date: 09 Dec 2019

Reviewer: Christopher Wong

Reviewer's report:

The authors have done commendable job in improving the manuscript.

However, the subgroup analyses are still inadequately presented in this reviewer's opinion. The authors have clarified that subgroup analyses were undertaken by 'positive or negative' (statistically significant or non-significant) results. The explanation is that this is to investigate sources of heterogeneity. However, no presentation of such investigation is presented in the results. There is some discussion of this in the Discussions section, but some analysis of such differences needs to be done and included in the Results section.

It is also very difficult to read the revision in the absence of a clean version given the vast number of tracked-changes made.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Acceptable

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

No
