Reviewer’s report

Title: An acute rupture of a sinus of Valsalva aneurysm into the right atrium: a case report and a narrative review

Version: 1 Date: 16 Jan 2020

Reviewer: Pei-Chun McGregor

Reviewer's report:

- Title page under Abstract: It's not in the right format. Case presentation and Conclusion titles are bunched up with the previous paragraph.

- Page 2, line 36: mis-spelled word: "Transthoracid"

- Page 3, line 25: I don't think "Tertiary" need to be capitalized.

- Words "figures" and "videos" are not consistently capitalized or un-capitalized. Make it consistent according to journal standards please.

- Page 8, line 16: "Death is usually due to congestive heart failure." What's the reference for this? CHF is an advanced stage of SVA and portends poor prognosis but your statement is rather strong. Consider rewording this or provide reference for this statement.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
